

BEAUTIFICATION COMMITTEE MINUTES—OCTOBER 13, 2016
7 p.m. CST (Town Hall)

BUS STOP DESIGN

Town residents Jacqueline and Tom Feeley, Dr. Bob Lemay, and Martha Maust attended

Photo of Michiana beach access design was presented as an example—will contact Michiana Town Clerk for designer/contractor for input

The Feeley's obtained bus stop surveys from the town; briefly reviewed those stops that had encroachments on town property

Every stop should be evaluated individually—using Stop 16 as an exemplary model

QUESTIONS/CONCERNS

Feasibility of town taking back the bus stops where encroachments have taken place?

Is there an ordinance for beach chairs being left/chained at the stops?

Bike racks at stops?

Garbage cans/toters take up a lot of room at the bus stops. If there were none would residents/guests leave just their trash?

CLEAN-UP REPORT

Brian cleaned Stop 19; removed Phragmites—invasive grass/weed

Stop 30 needs trees trimmed — need to contact the town for tree trimmer

On Friday, October 14, 2016 at 12:00 p.m. any interested individuals/parties can meet at Martha Maust's home to walk and analyze each beach stop needs and concerns.

Next meeting Nov. 10, 2016 at 7:00 p.m. Town Center
