

Long Beach Park and Recreation Board Minutes

June 26, 2013 at 7pm

Mary Joy and Jane Neulieb were present: there was not a quorum therefore no voting took place.

1. We discussed the Summer Camp and a report from the Director Sarah Kanyer: We have 15 staff members this year, 4 of which are licensed educators and 5 that are going to school for education. We already have just under 100 kids registered for camp with more enrolling each week. Our themes for camp this year are...welcome week, science week, 4th of July week, kid chef week, under the sea week, wild about animals week, and water week. We have made coke rockets, bubble paint, rock bugs, tie dyed, learned soccer skills and played soccer games. We will be making glow sticks, wreaths, sand pairings, working on frisbee and volleyball skills as just part of the upcoming events!
2. The stairs to the beach at Stop 21 are in construction. The stairs are east of the old stairway. Once the new stairs are completed the old stairs will have the iron and wood removed which will cause them to be covered by sand and inoperable. Jim Pudlo predicts that they will be completed this week. The next construction of stairs will be at Stop 22 to replace the narrow iron stairs north of the wood stairway from the landing to the sand.

End of report.
