

**Town of Long Beach  
Police Commission Meeting  
October 7, 2015**

**Present: Bob Angelo, Bob Schaefer, Val Sliwa, Chief Bob Sulkowski**

**1.The In-house cameras are being installed and the in-house telephone service is being switched from AT&T to Adsnet.**

**2.The County has set up the new Interact System for police departments and have set training dates for our officers. This is a modern computerized record management system tied to the County for all police departments. There is no cost involved.**

**3.The County Emergency Management department is switching its public service/safety system to 800 megahertz which will be an upgrade to the existing system.**

**4.As a result of increased auto break-ins, the reserve officers are using their own cars for patrolling, instead of the marked Long Beach police cars.**

**5. Next meeting is Wednesday November 11<sup>th</sup> at 8:30AM.**
